

Habitat for Biodiversity

Hosted By

Napoleon Reef Land Care Inc.

**You are invited to come for the day or
just pop in.**

Prizes to win throughout the day.*

Have you noticed the natural environment shrinking and would you like to know how to support wildlife and attract birds to your garden?

Habitat for Biodiversity is about homes for all species. They need a place to live and a food source.

Day will Include:

Oliver Shoemark: *Tree Habitat Creation Demo*

BBQ;

Dave Scott: *What is habitat?*

Tips on preserving environment;

Tiffany Mason: *Birds and Habitat.*

Display of locally collected plants;

Milton Lewis: *Eco Burns*

Napoleon Reef Historical Display;
